Profile Summary

Computer Science sophomore (3.11/4.0 GPA) with hands-on experience in Flutter and .NET development. Built 7+ cross-platform apps and web projects serving 200+ simulated users. Seeking Summer 2026 internship in mobile or full-stack development where strong UI/UX, Firebase integration, and Agile collaboration skills can drive impact.

Skills

Languages: C++, Dart, C#, Java, JavaScript, HTML, CSS, .NET, SQL

Frameworks & Tools: Flutter, ASP.NET Core, Firebase, MySQL, MongoDB, Git, GitHub, VS Code

Core Concepts: OOP, DSA, REST APIs, State Management (Provider/GetX), Cross-Platform Development, Agile/Scrum, Unit Testing (JUnit/xUnit), CI/CD Basics

Education

Air University
BS Computer Science
CGPA: 3.11/4.0

Islamabad, Pakistan
Expected: May 2028

Projects

SCAEN – Emergency Assistance App (Flutter)

Sep 2025

github.com/talha-23/SCAEN

- Built cross-platform emergency response app used in disaster drill with 50+ simulated incident reports
- Integrated Google Maps API for live location sharing, reducing estimated response time by 30%
- Implemented Firebase Auth and Firestore, handling 200+ concurrent user sessions in load testing

Medicat – Medication Tracker (Flutter)

Jan 2026

github.com/talha-23/Medicata

- Created medication reminder app with 95% on-time notification delivery across 500+ simulated daily reminders
- Implemented dual storage (SQLite local + Firebase cloud) supporting 150+ registered and guest users
- Reduced missed medication logs by 40% through push notification system

Edu Connect – E-Learning Platform (.NET)

Jan 2026 – Present

- Built ASP.NET Core MVC platform with 5+ course modules, serving 100+ student/instructor accounts
- Implemented JWT authentication with role-based access control (Admin/Instructor/Student)
- Optimized SQL Server queries reducing dashboard load time by 25%

FX Transfer – Currency Exchange System (.NET)

Nov 2025 – Dec 2025

- Developed real-time currency converter supporting 30+ fiat currencies via ExchangeRate API
- Processed 1,000+ simulated transactions with automatic rate updates every hour
- Generated PDF receipts for each transaction using iTextSharp library

Campus Pulse – Event Reminder (Flutter)

Feb 2026

github.com/talha-23/Campus-Pulse

- Delivered real-time campus event notifications to 100+ beta testers using Firebase Cloud Messaging
- Implemented offline-first architecture with SQLite + Provider, reducing API calls by 60%
- Achieved 4.8/5 UI rating in peer review for Material Design implementation

C++ Academic Projects

Sep 2024 – Dec 2025

github.com/talha-23/C-Projects

- University Management System: Implemented linked list operations with 10,000+ record handling capacity
- Parking Manager: Applied OOP (inheritance/polymorphism) to optimize space allocation by 35%

Web Projects (5+ live deployments)

Nov 2025 – Present

E-commerce Frontend • Car Sales Hub • Mini Projects (Clock, Quiz, Joke Generator)

- E-commerce frontend: 500+ lines of responsive HTML/CSS/JS, 15+ product categories
- Interactive mini projects (clock, quiz, joke gen): 200+ monthly visits via GitHub Pages

Experience

Code Alpha – Flutter Intern (Virtual)

Feb 2026 – Present

- Developed and shipped 2 cross-platform Flutter features adopted by internal demo
- Integrated Firebase Firestore and Authentication, reducing backend setup time by 3 hours per project
- Delivered UI components 2 days ahead of sprint deadline through parallelized widget development

Leadership

- Member — Islamic Society, Air University
- Member — AUICS (Air University IT & Computer Science Society)

Interests

Graphics Programming • Competitive Programming (50+ problems solved) • Open Source Contribution
